

Technical Data Sheet

Page 1 of 1

- Properties:** AKEMI® Brake Parts Cleaner is a solvent-containing, highly effective brake parts cleaner. Due to the very fast evaporation, an optimal cleaning effect can be achieved in the short term.
- Application Area:** AKEMI® Brake Parts Cleaner degreases and removes dust, dirt, brake fluid, oil etc. from
- brake discs
 - brake drums
 - disc pads
 - brake shoes and brake linings
 - springs
 - clutch plates and covers
- Instructions for use:** Spray parts to be cleaned liberally from a distance of 20 cm until grease, oil, dirt and dust is removed. For stubborn stains, leave to soak for a while.
- Special Notes:**
- For professional use only.
 - The product may attack some plastics or paints, therefore test on an inconspicuous area first.
 - For proper waste disposal, the container must be completely emptied.
 - Recycling in accordance with the guidelines of EU Decision 97/129 EC on the Packaging Directive 94/62/EC.
- Technical Data:**
- | | |
|----------------------|-------------------------------------|
| Base: | mixture of hydrocarbons and acetone |
| Colour: | colourless |
| Working temperature: | 10 - 35°C |
- Storage:** If stored in dry and cool condition (5 - 25°C/41 - 77°F) in its closed original container at least 30 months from production.
- Health & Safety:** Read Safety Data Sheet before handling or using this product.
- Important Notice:** The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information - as well as other oral or written technical advises - must be considered as non-binding hints. The user is obliged in each particular case to conduct performance tests, including but not limited to trials of the product, in an inconspicuous area or fabrication of a sample piece.
